

IQ InterQuirófanos

- Care, Intelligence and Ethics -

## OUR COMPANY

We are an institution that provides humanized **medical and surgical services** to patients nationally and internationally, with an accumulated experience since 2006, **high standards of quality and safety** with a prepared, competent and committed team.

We are **supported by a network** of high complexity institutions to provide continuity and safety to our users. We also have agreements with insurance companies for complication policies issued by our ally, **Suramericana de Seguros**, with competitive coverage and rates, as well as with **Pan American Life**.

Safety as a quality attribute is supported by **differentiating indicators**, including **high user satisfaction indexes, low infection rates and adverse events**, thus supporting the efficiency and effectiveness of our processes.

We have **certificates of compliance and social and environmental responsibility** that support our excellent quality processes. Additionally, we have the **"Company Committed to Biosafety"** seal, which means that we have a serious and responsible biosafety protocol.

## Operating Rooms

A service designed for the management of **biomedical technology**, with assured processes for preventive maintenance, traceability and proper functioning of the equipment, **aiming at patient safety and the specialist's peace of mind.**

We are equipped with **advanced technology operating rooms**, in areas between 28-32 square meters (300-340 square feet) with avant-garde architecture, an infrastructure **designed to contribute to patient safety.**

## Biomedical Technology

We offer **modern and secure** recovery rooms with the most advanced equipment which **continuously monitor vital signs** while being constantly supervised by our team of professionals, all in-line with safety regulations.

## Recovery Rooms

**Commitment · Honesty · Respect · Responsibility**

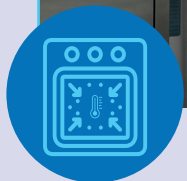

## Hospitalization Rooms

Our medical facility has **luxurious boutique hospitalization rooms** all equipped with the most **advanced technology**, each between 25-35 square meters (270-375 square feet) that have the latest generation monitors, which report the patient's vital conditions to a central office supervised by our team of highly trained professionals.

We **care for the environment and the wellness of our employees**. We are also committed to society, which is why we have the **IQ Te Quiere Foundation**, which intervenes free of charge for low-income children who require low and medium complexity surgery, **giving them back their smiles and improving their quality of life**.

## Social and Environmental Responsibility

## Sterilization Centrals

**High technology equipment and high quality standards** in materials used and processes implemented in the sterilization of thermo-resistant and thermo-sensitive material, always aimed at providing safety and minimizing risks in patient care. **This service is open to third persons, contact us!**
